TAN CANG OFFSHORE SERVICES JOINT STOCK COMPANY

STATEMENT OF THE LEGAL REPRESENTATIVE

The legal representative of Tan Cang Offshore Services Joint Stock Company (hereinafter referred to as "the Company") presents this statement together with the Interim Consolidated Financial Statements for the accounting period from 1 January 2026 to 30 June 2026 comprising the Financial Statements of the Company and its subsidiaries (hereinafter collectively referred to as "the Group").

Responsibilities of the Board of Management

The Board of Management is responsible for the preparation of the Interim Consolidated Financial Statements that give a true and fair view of the consolidated financial position, the consolidated financial performance and the consolidated cash flows of the Group during the period. In order to prepare these Interim Consolidated Financial Statements, the Board of Management must:

- Select appropriate accounting policies and apply them consistently;
- Make judgments and estimates reasonably and prudently;
- State whether applicable accounting standards have been followed or not, and all the differences subject to any materials departures are disclosed and explained in the Interim Consolidated Financial Statements;
- Prepare the Interim Consolidated Financial Statements of the Group on a going-concern basis unless it is inappropriate to presume that the Group will continue in business; and
- Design and implement effectively the internal control system to minimize the risks of material misstatements due to fraud or error in the preparation and presentation of the Interim Consolidated Financial Statements.

The Board of Management hereby ensures that all the proper accounting books of the Group have been fully recorded that disclose with reasonable accuracy at any time the financial position of the Group, and that all the accounting books have been prepared in accordance with the applicable Accounting System. The Board of Management is also responsible for safeguarding the Group's assets and consequently has taken appropriate measures to prevent and detect frauds and other irregularities.

The Board of Management hereby confirms that the Group has complied with the aforementioned requirements in preparation of the Interim Consolidated Financial Statements.

Statement of the legal representative

In the opinion of the legal representative, the Interim Consolidated Financial Statements give a true and fair view of the consolidated financial position of the Group as at 30 June 2026 and of its consolidated financial performance and consolidated cash flows for the accounting period from 1 January 2026 to 30 June 2026, in accordance with the Vietnamese Accounting Standards, the Vietnamese Enterprise Accounting System and relevant statutory requirements on the preparation and presentation of Interim Consolidated Financial Statements.

No. 2.0609/26/TC-AC

REPORT ON REVIEW OF INTERIM FINANCIAL INFORMATION To: THE SHAREHOLDERS, THE BOARD OF DIRECTORS AND THE BOARD OF MANAGEMENT TAN CANG OFFSHORE SERVICES JOINT STOCK COMPANY

We have reviewed the accompanying Interim Consolidated Financial Statements of Tan Cang Offshore Services Joint Stock Company (hereinafter referred to as "the Company") and its subsidiaries (hereinafter collectively referred to as "the Group"), which were prepared on 26 August 2026, from page 5 to page 58, comprising the Interim Consolidated Statement of Financial Position as at 30 June 2026, the Interim Consolidated Statement of Income, the Interim Consolidated Statement of Cash Flows for the accounting period from 1 January 2026 to 30 June 2026 and the Notes to the Interim Consolidated Financial Statements.

Responsibility of the Board of Management

The Company's Board of Management is responsible for the preparation, true and fair presentation of the Group's Interim Consolidated Financial Statements in accordance with the Vietnamese Accounting Standards, the Vietnamese Enterprise Accounting System and relevant statutory requirements on the preparation and presentation of Interim Consolidated Financial Statements; and responsible for such internal control as the Board of Management determines necessary to enable the preparation and presentation of the Interim Consolidated Financial Statements to be free from material misstatement due to fraud or error.

Responsibility of Auditors

Our responsibility is to express a conclusion on the Interim Consolidated Financial Statements based on our review. We conducted our review in accordance with the Vietnamese Standard on Review Engagements No. 2410 – Review of Interim Financial Information Performed by the Independent Auditor of the Entity.

A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with the Vietnamese Standards on Auditing and therefore, it does not enable us to obtain a reasonable assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express our audit opinion.

Conclusion of Auditors

Based on our review, nothing has come to our attention that causes us to believe that the accompanying Interim Consolidated Financial Statements do not give a true and fair view, in all material respects, of the consolidated financial position of Tan Cang Offshore Services Joint Stock Company and its subsidiaries as at 30 June 2026 and of their consolidated financial performance and consolidated cash flows for the accounting period from 1 January 2026 to 30 June 2026, in accordance with the Vietnamese Accounting Standards, the Vietnamese Enterprise Accounting System and relevant statutory requirements on the preparation and presentation of Interim Consolidated Financial Statements.

Other matter

The Report on review of the Group's Interim Consolidated Financial Statements for the accounting period from 1 January 2026 to 30 June 2026 has been prepared in both Vietnamese and English. In the event of any discrepancy between the two versions, the Vietnamese version shall prevail.

INTERIM CONSOLIDATED FINANCIAL STATEMENTS

Accounting period from 1 January 2026 to 30 June 2026

NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS

Accounting period from 1 January 2026 to 30 June 2026

I. GENERAL INFORMATION**1. Form of ownership**

Tan Cang Offshore Services Joint Stock Company (hereinafter referred to as “the Company” or “the Parent Company”) is a joint stock company.

2. Operating fields

The Company operates in the fields of service.

3. Business activities

The principal business activities of the Company include: Provision of multi-purpose oil and gas service vessels, standby vessels and security vessels; Tugboat, rescue and salvage services; Subsea survey services; Transportation and Installation (T&I) services; Port management and operation services; Supply services.

4. Normal operating cycle

The normal operating cycle of the Company is within 12 months.

5. Structure of the Group

The Group includes the Parent Company and 9 subsidiaries under the control of the Parent Company all of which are consolidated in the Interim Consolidated Financial Statements.

5a. Information on the Group's restructuring*Increase in the proportion of ownership interest in the Associate*

On 14 April 2026, the Company's Board of Directors issued Resolution No. 10/2026/NQ-HDQT approving the plan for transferring shares from other shareholders of Tan Cang - Gantry JSC. (“Gantry”) in order to increase the proportion of ownership interest in Gantry. Accordingly, the Company acquired a further 2,250,000 shares from Tan Cang Technical Services JSC. at a purchase price of VND 30,665,525,879 (VND 13,629 per share).

Following this transaction, the Group holds 4,275,000 shares, with a face value of VND 42,750,000,000, representing 95% of Gantry's charter capital. Gantry has been reclassified from the Associate to the Subsidiary of the Group.

Details of the fair value of the subsidiaries' assets and liabilities at the time of business combination are as follows:

<i>Assets</i>	244,752,087,937
Cash	4,610,972,713
Short-term held-to-maturity investments	14,941,142,745
Short-term trade receivables	38,117,986,887
Short-term prepayments to suppliers	10,208,770,896
Other short-term receivables	2,624,666,009
Inventories	136,510,320,039
Short-term deferred expenses	354,470,113
Deductible VAT	8,384,937,655
Historical costs of tangible fixed assets	36,392,121,670
Accumulated depreciation of tangible fixed assets	(7,970,901,610)
Historical costs of intangible fixed assets	483,367,200
Accumulated amortization of intangible fixed assets	(198,717,627)

These Notes form an integral part of and should be read in conjunction with the Interim Consolidated Financial Statements

Costs of additional investments to increase proportion of ownership interest from 45% to 95%	30,665,525,879
Total	59,556,911,090

(*) See Note V.2b

Net cash outflow for the acquisition of the subsidiary:

Payment in cash	30,665,525,879
Cash and cash equivalents of the subsidiary as of the acquisition date	(4,610,972,713)
Net cash outflow	26,054,553,166

Change in the proportion of ownership interest in the subsidiary

During the period, other shareholders of Tan Cang Lach Huyen JSC. ("TCLH") continued to contribute additional charter capital, amounting to VND 10 billion. At the end of the accounting period, TCLH's charter capital stood at VND 230 billion, corresponding to 23 million shares (Beginning balance: VND 220 billion, corresponding to 22 million shares), of which the Company held 16 million shares, representing 69.57% of TCLH's charter capital (Beginning balance: 72.73%). The impact of the change in the proportion of ownership interest in the subsidiary resulted in a reduction in the loss of VND 118,190,114, which was recognized under the item "Retained earnings" (see Note V.24).

6. Number of employees

As at 30 June 2026, the Group had 1,882 employees (as at 1 January 2026: 1,683 employees).

7. Statement on information comparability in the Interim Consolidated Financial Statements

The corresponding figures of the previous period are comparable to those of the current period.

During the period, the Group applied for Circular No. 99/2025/TT-BTC dated 27 October 2025 issued by the Ministry of Finance ("Circular 99") for the first time, which replaces Circular No. 200/2014/TT-BTC dated 22 December 2014 ("Circular 200") on guidelines for the Vietnamese Enterprise Accounting System, and Circular No. 43/2026/TT-BTC dated 20 April 2026 issued by the Ministry of Finance ("Circular 43") amending and supplementing Circular No. 202/2014/TT-BTC dated 22 December 2014 ("Circular 202") giving guidance on the preparation and presentation of Consolidated Financial Statements. Accordingly, certain items in the Interim Consolidated Financial Statements have been reclassified and renamed in accordance with the new regulations. The figures in the "Beginning balance" and "Previous period" columns of the Interim Consolidated Financial Statements have been restated in accordance with the new classifications and terminology set out in Circular 99 and Circular 43 to ensure comparability. These changes do not affect the Group's total assets, total liabilities, owners' equity or profit after tax.

8. Other information

The Company's shares have been listed for trading on the UPCOM market (Unlisted Public Company Market) of the Hanoi Stock Exchange under the stock code "TOS" pursuant to Decision No. 406/QĐ-SGDHN dated 3 August 2021 issued by the Hanoi Stock Exchange. The first date of transaction was 8 September 2021. The number of shares registered for trading at the end of accounting period was 44,999,681 shares, with a face value of VND 10,000 per share.

TAN CANG OFFSHORE SERVICES JOINT STOCK COMPANY

Address: No. 52-54 Truong Van Bang Road, Binh Trung Ward, Ho Chi Minh City

INTERIM CONSOLIDATED FINANCIAL STATEMENTS

Accounting period from 1 January 2026 to 30 June 2026

Notes to the Interim Consolidated Financial Statements (cont.)

II. ACCOUNTING PERIOD, ACCOUNTING CURRENCY

1. Accounting period

The Group's accounting period begins on 01 January and ends on 31 December annually.

2. Accounting currency

The accounting currency is the Vietnamese Dong (VND), as transactions are primarily conducted in VND.

III. APPLICABLE ACCOUNTING STANDARDS AND SYSTEM

1. Applicable Accounting System

The Group applies Vietnamese Accounting Standards and the Vietnamese Enterprise Accounting System issued pursuant to Circular No. 99/2025/TT-BTC dated 27 October 2025 ("Circular 99"). The methods for the preparation and presentation of Consolidated Financial Statements are issued under Circular No. 202/2014/TT-BTC dated 22 December 2014 ("Circular 202") and amended and supplemented by Circular No. 43/2026/TT-BTC dated 20 April 2026 of the Ministry of Finance ("Circular 43"), as well as the Ministry of Finance's guiding circulars giving guidance on the preparation and presentation of Interim Consolidated Financial Statements.

Adoption of the New Enterprise Accounting System

The fiscal year ended 31 December 2026 is the first year in which the Group adopts the Enterprise Accounting System under Circular 99, replacing Circular No. 200/2014/TT-BTC dated 22 December 2014.

The transition to Circular 99 is carried out using the following methods:

- For changes in accounting policies for which Circular 99 provides specific transition guidance, the Group follows that guidance.
- For changes in accounting policies for which Circular 99 does not require retrospective or simplified retrospective adjustment, the Group applies the non-retrospective method.

2. Statement on the compliance with the Accounting Standards and System

The Board of Management ensures the compliance with all the requirements of Vietnamese Accounting Standards, the Vietnamese Enterprise Accounting System issued under Circular 99, the methods for the preparation and presentation of Consolidated Financial Statements are issued under Circular 202 and amended and supplemented by Circular 43, as well as the Ministry of Finance's circulars giving guidance on the preparation and presentation of Interim Consolidated Financial Statements.

IV. APPLICABLE ACCOUNTING POLICIES

1. Basis of preparation of the Interim Consolidated Financial Statements

The Interim Consolidated Financial Statements are prepared on the accrual basis accounting (except for information related to cash flows) in accordance with the historical cost convention and on the going-concern basis.

The Consolidated Financial Statements have been prepared in both Vietnamese and English, in which the Consolidated Financial Statements in Vietnamese are the official statutory financial statements of the Group. The Consolidated Financial Statements in English have been translated from the Vietnamese version. In the event of any discrepancy between the two versions, the Vietnamese version shall prevail.

2. Basis of consolidation

The Interim Consolidated Financial Statements include the Interim Financial Statements of the Parent Company and its subsidiaries. A subsidiary is a business that is controlled by the Parent Company. The control exists when the Parent Company has the power to directly or indirectly govern the financial and operating policies of the subsidiary to obtain economic benefits from its activities. In determining the control power, the potential voting right arising from share call options, debt or equity instruments that are convertible into ordinary shares at the end of the accounting period shall be taken into consideration.

The business performance results of the subsidiaries that are acquired or disposed of during the period are included in the Interim Consolidated Statement of Income from the date of acquisition or until the date of disposal of those subsidiaries.

TAN CANG OFFSHORE SERVICES JOINT STOCK COMPANY

Address: No. 52-54 Truong Van Bang Road, Binh Trung Ward, Ho Chi Minh City

INTERIM CONSOLIDATED FINANCIAL STATEMENTS

Accounting period from 1 January 2026 to 30 June 2026

Notes to the Interim Consolidated Financial Statements (cont.)

The Interim Financial Statements of the Parent Company and its subsidiaries used for consolidation are prepared for the same accounting period and apply consistent accounting policies for similar transactions and events in similar circumstances. In case the subsidiaries's accounting policies are different from those that are applied consistently within the Group, the appropriate adjustments should be made to the subsidiaries's Financial Statements before they are used to prepare the Interim Consolidated Financial Statements.

Intra-group balances in the Statement of Financial Position and intra-group transactions and unrealized intra-group gains resulting from these transactions are eliminated when preparing the Interim Consolidated Financial Statements. Unrealized losses resulting from intra-group transactions are also eliminated unless costs that cause those losses cannot be recovered.

Non-controlling interests ("NCI") include the gains or losses of the subsidiary's operating results and net assets that are not held by the Group and are presented in a specific item in the Interim Consolidated Statement of Income and the Interim Consolidated Statement of Financial Position (as a part of the owner's equity). NCI include the value of NCI at the date of initial business combination and those in the changes of owner's equity commencing from that date. Losses arising in the subsidiaries are allocated to NCI based on the non-controlling shareholders' ownership rate in the subsidiaries, even if those losses exceed the non-controlling shareholders' ownership in the net assets of the subsidiary.

Where a subsidiary raises additional capital from its owners, if the proportion of the additional capital contributed by the parties does not correspond to the current ownership ratio, the difference between the Group's additional capital contribution and the corresponding increase in its share of the subsidiary's net assets is recognized in 'Retained earnings' in the Interim Consolidated Statement of Financial Position.

3. Foreign currency transactions

Foreign currency transactions are translated at the actual exchange rate on the date of transaction. The ending balances of monetary items in foreign currencies at the end of the accounting period (excluding foreign currency-denominated accounts receivable for which an allowance for doubtful debts has been established) are revalued at the average transfer exchange rate of the Bank where the Group frequently conducts transactions.

Foreign exchange rate differences incurred during the period from foreign currency transactions are recognized as financial income (if a gain) or financial expenses (if a loss). Exchange differences arising from the revaluation of foreign currency-denominated monetary items at the end of the accounting period are presented as the net amount of total gains and total losses arising from the revaluation of such items and are recognized as financial income (if a gain) or financial expenses (if a loss).

4. Cash and cash equivalents

Cash includes cash on hand, demand deposits and cash in transit. Cash equivalents are short-term investments with maturities not exceeding 3 months from the date of investment that are readily convertible into known amounts of cash and are subject to an insignificant risk of change in value at the end of the accounting period. Cash and cash equivalents subject to restrictions on use are not presented under this line item but are presented under "Other Current Assets" or "Other Non-Current Assets", depending on the duration of the restriction.

5. Financial investments

Held-to-maturity investments

Investments are classified as held-to-maturity investments when the Group has the intent and ability to hold them until the maturity date. Held-to-maturity investments include: term deposits and loans held to maturity for the purpose of earning periodic interest.

A provision for impairment of held-to-maturity investments is recognized when there is evidence that part or all of the investment may not be recoverable and the amount of the loss can be reliably measured. Increases or decreases in provisions for impairment of held-to-maturity investments at the end of the accounting period are recognized in "Financial expenses".

TAN CANG OFFSHORE SERVICES JOINT STOCK COMPANY

Address: No. 52-54 Truong Van Bang Road, Binh Trung Ward, Ho Chi Minh City

INTERIM CONSOLIDATED FINANCIAL STATEMENTS

Accounting period from 1 January 2026 to 30 June 2026

Notes to the Interim Consolidated Financial Statements (cont.)

Investments in associates

An associate is an entity which the Group has significant influence but does not have the right to control its financial and operating policies. Significant influence is the right to participate in making decisions on the associate's financial and operating policies but does not control those policies.

Investments in associates are recognized using the equity method. Accordingly, the investments in associates are presented in the Interim Consolidated Financial Statements at their initial costs and adjusted for changes in the associates' net assets after the investment date. If the Group's share of losses in an associate exceeds or equals the carrying amount of the investment, the carrying value of the investment presented in the Interim Consolidated Financial Statements will be reduced to zero, unless the Group has an obligation to make payments on behalf of the associate.

The Financial Statements of the associates are prepared for the same accounting period with the Interim Consolidated Financial Statement of the Group. In case the accounting policies of an associate are different from those that are applied consistently within the Group, the Financial Statements of that associate will be suitably adjusted before being used to prepare the Interim Consolidated Financial Statements.

Unrealized gains and losses arising from transactions with associates are eliminated by the proportion belong to the Group when preparing the Interim Consolidated Financial Statements.

Investments in equity instruments of other entities

Investments in equity instruments of other entities include such investments in equity instruments that do not enable the Group to have the control, joint control or significant influence on these entities.

Investments in equity instruments of other entities are initially recognized at cost, including the cost of purchase or capital contributions plus other directly attributable costs (transaction costs, brokerage fees, consulting fees, audit fees, duties, taxes, and bank charges, etc.). Specifically, when the Group borrows funds to invest in the equity instruments of other entities, interest expenses are recognized as financial expenses and are not capitalized. Where an investment is made using non-monetary assets, the cost of the investment is measured at the fair value of the non-monetary assets at the transaction date. Subsequent to initial recognition, these investments are carried at cost.

Dividends and profit distributions of the previous periods prior to the acquisition of the investment are deducted from the cost of the investment. Dividends and profit distributions of the periods after the acquisition date are recognized as financial income. Stock dividends received are tracked only in terms of the additional number of shares received, and the value of such shares is not recognized as income.

Provisions for impairment of investments in equity instruments of other entities are made as follows:

- For investments in listed shares or investments where the fair value can be reliably measured, provisions are established based on the market value of the shares.
- For investments where fair value cannot be determined at the reporting date, provisions are established based on the losses incurred by the investees, with the amount calculated as the Group's ownership interest in each investee's actual contributed charter capital at the end of the accounting period, multiplied by the difference between the investee's actual contributed charter capital and its owners' equity at the same date.

Increases or decreases in provisions for impairment of investments in equity instruments of other entities at the end of the accounting period are recognized in "Financial expenses".

6. Receivables

Receivables are presented at their carrying amount less allowance for doubtful debts.

Receivables are classified as trade receivables or other receivables based on the following principles:

These Notes form an integral part of and should be read in conjunction with the Interim Consolidated Financial Statements

TAN CANG OFFSHORE SERVICES JOINT STOCK COMPANY

Address: No. 52-54 Truong Van Bang Road, Binh Trung Ward, Ho Chi Minh City

INTERIM CONSOLIDATED FINANCIAL STATEMENTS

Accounting period from 1 January 2026 to 30 June 2026

Notes to the Interim Consolidated Financial Statements (cont.)

- Trade receivables represent amounts of a commercial nature arising from purchase and sale transactions between the Group and customers that are independent of the Group.
- Other receivables represent amounts of a non-commercial nature that do not arise from purchase and sale transactions.

Receivables are tracked in detail by debtor, maturity, and original currency.

Trade receivables and other receivables are classified as short-term or long-term in the Statement of Financial Position based on their remaining maturity at the end of the accounting period.

An allowance for doubtful debts is made for each doubtful receivable after offsetting against the corresponding payable, if any. The amount of the allowance is determined based on the ageing of overdue receivables or the estimated loss that may be incurred, as follows:

- For overdue receivables:
 - 30% of the receivable amount overdue from 6 months to less than 1 year;
 - 50% of the receivable amount overdue from 1 year to less than 2 years;
 - 70% of the receivable amount overdue from 2 years to less than 3 years; and
 - 100% of the receivable amount overdue from 3 years or more.
- For receivables that are not yet overdue but are considered unlikely to be recovered, the allowance is made based on the estimated loss.

7. Inventories

Inventories are recognized at the lower of cost and net realizable value

Costs of inventories are determined as follows:

- Raw materials and merchandise: Costs comprise costs of purchases and other directly attributable costs incurred in bringing the inventories to their present location and condition.
- Work in progress: Costs comprise main materials, labour and other directly attributable costs.

The cost of inventories is determined using the weighted average method and recorded in accordance with the perpetual inventory system.

Net realizable value is the estimated selling prices of inventories in an ordinary course of business less the estimated expenses on product completion and other necessary expenses to make the sale.

An allowance for devaluation of inventories is made for each inventory item or work-in-progress service whose original costs exceed its net realizable value. Increases or decreases in the allowance at the end of the accounting period are recognized in "Costs of sales".

8. Deferred expenses

Deferred expenses represent actual expenses incurred, including both prepaid and non-prepaid expenses, that relate to the results of production and business activities over multiple accounting periods and are allocated to the production and business expenses of the relevant accounting periods.

Deferred expenses are classified in the Statement of Financial Position as short-term when the allocation period does not exceed 12 months or falls within one normal operating cycle, and as long-term when the allocation period exceeds 12 months or is longer than one normal operating cycle. Long-term deferred expenses are not reclassified as short-term deferred expenses when preparing the Financial Statements.

Allocation for deferred expenses to production and business expenses is performed for each period based on the nature and extent of each type of expense to select the appropriate allocation method and criteria. The timing and methods for allocating the Group's deferred expenses are as follows:

TAN CANG OFFSHORE SERVICES JOINT STOCK COMPANY

Address: No. 52-54 Truong Van Bang Road, Binh Trung Ward, Ho Chi Minh City

INTERIM CONSOLIDATED FINANCIAL STATEMENTS

Accounting period from 1 January 2026 to 30 June 2026

Notes to the Interim Consolidated Financial Statements (cont.)***Expenses for tools***

The tools issued for use in connection with business operations over multiple accounting periods are recognized as deferred expenses and are allocated into operation costs on a straight-line basis over their estimated useful lives (not exceeding 36 months).

Expenses for fixed asset repairs

Major repairs of fixed assets are amortized using the straight-line method over an allocation period not exceeding 36 months.

Insurance premiums

Insurance premiums are amortized to expenses over the period specified in the insurance contract.

Expenses for periodic ship repairs and maintenance

Expenses for periodic ship repairs and maintenance arising once with high value are amortized using the straight-line method over an allocation period not exceeding 36 months.

Expenses for port and container yard maintenance

Expenses for port and container yard maintenance arising once with high value are amortized using the straight-line method over 24 months.

Bank guarantee fee

The guarantee fee is amortized to expenses over the term of the Letter of Guarantee.

Land rental

Land rental costs are amortized to expenses over the lease term.

9. Tangible fixed assets

Tangible fixed assets are stated at historical costs less accumulated depreciation.

The historical costs of a tangible fixed asset include all costs incurred by the Group to acquire the asset up to the date it is ready for use.

Subsequent expenditures are capitalized as part of the cost of fixed assets only when it can be clearly demonstrated that the expenditures will result in future economic benefits expected to flow to the entity from the use of such assets. Those that do not meet these criteria are recognized as operating expenses during the period in which they are incurred. For fixed assets that require periodic repairs and maintenance in accordance with technical requirements, significant periodic repair and maintenance costs are recognized as deferred expenses and amortized to production and operating expenses until the next scheduled repair and maintenance.

When a tangible fixed asset is sold or disposed of, its historical costs and accumulated depreciation are written off, and any gain or loss arising from disposal is recognized in profit or loss during the period.

Tangible fixed assets are depreciated on a straight-line basis over their estimated useful lives. The useful lives and depreciation methods are reviewed at least at the end of each fiscal year and adjusted if necessary. The number of years and depreciation rates for various classes of tangible fixed assets are as follows:

<u>Class of fixed assets</u>	<u>Number of years</u>
Buildings and structures	05-25
Machinery and equipment	03-15
Means of transportation	06-15
Office equipment	03-10
Other fixed assets	04-05

10. Finance leased assets

A lease is classified as a finance lease if substantially all the risks and rewards associated with the ownership of the asset are transferred to the lessee.

Finance lease assets are stated at historical costs less accumulated depreciation.

TAN CANG OFFSHORE SERVICES JOINT STOCK COMPANY

Address: No. 52-54 Truong Van Bang Road, Binh Trung Ward, Ho Chi Minh City

INTERIM CONSOLIDATED FINANCIAL STATEMENTS

Accounting period from 1 January 2026 to 30 June 2026

Notes to the Interim Consolidated Financial Statements (cont.)

The historical cost of a finance lease asset is the lower of the fair value of the leased asset at the inception of the lease and the present value of the minimum lease payments. The discount rate used to calculate the present value of the minimum lease payments is the interest rate implicit in the lease. If the interest rate implicit in the lease cannot be determined, the rate specified in the lease agreement or the Group's incremental borrowing rate at the inception of the lease is used.

Finance lease assets are depreciated on a straight-line basis over their estimated useful lives. When there is no reasonable certainty that the Group will obtain ownership of the asset by the end of the lease term, the asset is depreciated over the shorter of the lease term and its estimated useful life. The useful lives and depreciation methods are reviewed at least at the end of each fiscal year and adjusted if necessary.

The Group's finance lease assets include transport vehicles, with the depreciation period of 5 – 6 years.

11. Intangible fixed assets

Intangible fixed assets are stated at historical costs less accumulated amortization.

The historical costs of an intangible fixed asset include all costs incurred by the Group to acquire the asset up to the date it is ready for use.

Expenses relating to intangible fixed assets incurred subsequent to initial recognition are recognized as production and operating expenses during the period, unless such expenses are directly attributable to a specific intangible fixed asset and increase the future economic benefits generated by that asset.

When an intangible fixed asset is sold or disposed of, its historical costs and accumulated amortization are written off, and any gain or loss arising from disposal is recognized in profit or loss during the period.

The useful life and amortization period are reviewed at least at the end of each fiscal year and adjusted if necessary.

The Group's intangible fixed assets include:

Land use right

Land use right includes all the actual expenses incurred by the Group directly attributable to the land being used such as expenses to obtain the land use right, expenses for site clearance compensation and ground leveling, registration fees and other directly attributable costs. Indefinite land use rights are not amortized.

Computer software

Costs related to computer software that is not an integral part of the related hardware are capitalized. The historical costs of computer software are the total of all costs that the Group has incurred up to the date the software is put in use. Computer software is amortized using the straight-line method over 2 years.

12. Construction-in-progress

Construction-in-progress represents costs directly attributable to assets under construction and machinery and equipment under installation, including borrowing costs capitalized in accordance with Vietnamese Accounting Standard No. 16 - Borrowing Costs ("VAS 16"). Assets in the progress of construction and installation are stated at cost and are not depreciated until construction or installation is completed and the assets are handed over and put in use. Upon completion, all costs are transferred to the appropriate asset category based on their actual intended use, including tangible fixed assets, intangible fixed assets, investment properties or inventories, and depreciation or amortization commences when the assets are put in use.

Expenses for upgrades and renovations of fixed assets currently in progress are accounted for separately and, upon completion, are added to the historical costs of the corresponding fixed assets.

TAN CANG OFFSHORE SERVICES JOINT STOCK COMPANY

Address: No. 52-54 Truong Van Bang Road, Binh Trung Ward, Ho Chi Minh City

INTERIM CONSOLIDATED FINANCIAL STATEMENTS

Accounting period from 1 January 2026 to 30 June 2026

Notes to the Interim Consolidated Financial Statements (cont.)

Routine repair and maintenance costs incurred periodically to maintain fixed assets in normal operating condition are recognized as production and operating expenses during the period in which they are incurred. For fixed assets that require periodic repairs and maintenance in accordance with technical requirements, the related costs are accumulated separately. Upon completion, such costs are transferred to deferred expenses and amortized to production and operating expenses until the next scheduled maintenance.

13. Accounting for sale and leaseback transactions of fixed assets

For sale and leaseback transactions of fixed assets, the difference between the fair value and the carrying amount of the fixed asset is recognized as income or an expense in the year.

In the case of the sale and leaseback of operating leased assets:

- If the selling price is lower than the fair value of the fixed assets, the difference between the selling price and the fair value is recorded as a prepaid expense and amortized to expenses over the lease term.
- If the selling price is higher than the fair value of the fixed assets, the difference between the selling price and the fair value is recorded as unearned revenue and offset against lease expenses over the lease term.

14. Business combinations and goodwill

The business combination is accounted for using the purchase method. Costs of business combination include the fair value at the date of exchange, of assets given, liabilities incurred or assumed, and equity instruments issued by the Group in exchange for control of the acquiree plus any costs directly attributable to the business combination. The assets acquired, identifiable liabilities and contingent liabilities in a business combination are recognized at fair value as of the date of obtaining control.

For a business combination achieved in stages, the costs of the business combination include the consideration transferred at the date of obtaining control of the subsidiary and the previous consideration transferred which have been revalued at fair value on the above-mentioned date. The difference between the investment's revalued cost and its historical cost is recognized as the profit or loss if before the date of obtaining control, the Group does not have a significant influence on the investee, and the investment is accounted for using the cost method. If before the date of obtaining control, the Group has a significant influence on the investee, and the investment is accounted for using the equity method, the difference between the investment's revalued cost and its value under the equity method is recognized into the profit or loss, and the difference between its value under the equity method and its historical cost is recognized directly into "Retained earnings" in the Interim Consolidated Statement of Financial Position.

The excess of the business combination cost over the Group's interest in the net fair value of the identifiable assets, liabilities, and contingent liabilities at the date of obtaining control of the subsidiary is recorded as goodwill. If the Group's interest in the net fair value of the identifiable assets, liabilities, and contingent liabilities at the date of obtaining control of the subsidiary exceeds the cost of the business combination, the difference is recorded in the Consolidated Income Statement.

Goodwill is amortized over 120 months using the straight-line method. If there are indicators that the goodwill is impaired with the impairment loss exceeds the annually allocated amount, the higher amount will be recorded in the Consolidated Income Statement.

Non-controlling interests at the date of initial business combination are determined on the basis of the non-controlling shareholders' ownership in the net fair value of assets, liabilities and contingent liabilities recognized.

TAN CANG OFFSHORE SERVICES JOINT STOCK COMPANY

Address: No. 52-54 Truong Van Bang Road, Binh Trung Ward, Ho Chi Minh City

INTERIM CONSOLIDATED FINANCIAL STATEMENTS

Accounting period from 1 January 2026 to 30 June 2026

Notes to the Interim Consolidated Financial Statements (cont.)

15. Business cooperation contract

A business cooperation contract ("BCC") is a contractual arrangement between two or more parties to jointly undertake an economic activity without establishing a separate legal entity. The accounting method applied is determined based on the substance of each contract, particularly whether joint control exists. Joint control exists when decisions about the relevant activities of the BCC require the unanimous consent of all parties sharing control, regardless of their capital contribution ratios or the legal form of the contract.

In all cases, when the Group is the party receiving cash or other assets contributed by the other parties to the BCC, the amounts received are recognized as liabilities and are not recognized as equity.

The Group's BCCs comprise only BCCs without joint control. The Group accounts for these in accordance with the economic substance of each contract. Specifically:

- Where the Group is a capital contributor to a BCC and the parties are only entitled to share in profits if the joint venture makes a profit and must bear losses if the joint venture incurs a loss, this capital contribution is recognized as a financial investment and classified as either short-term or long-term based on its remaining term at the end of the accounting period. Profit distributions from the BCC are recognized as financial income when the Group's right to receive such distributions is established. A provision for impairment losses, if any, is recognized in accordance with the requirements applicable to provisions for impairment losses on investments in other entities (see Note IV.3).
- Where the Group receives contribution capital from the joint venture participants and is obliged to conduct profit distribution at a fixed rate regardless of business performance, the BCC contract is recognized in substance as a loan. If the Group is responsible for the accounting and tax settlement for BCC, the transaction is accounted for as a borrowing; if the Group is not responsible for the accounting and tax settlement for BCC, the transaction is accounted for as a loan given.

16. Payables and accrued expenses

Payables and accrued expenses are recognized for amounts to be paid in the future in respect of goods and services received. Accrued expenses are recognized based on reasonable estimates of the amounts payable.

Payables are classified as trade payables, accrued expenses, or other payables based on the following principles:

- Trade payables represent payables of a commercial nature arising from purchases of merchandise, services and assets from suppliers that are independent of the Group.
- Accrued expenses represent amounts payable for goods and services received from suppliers or provided to customers during the period but not yet paid because the supporting accounting documents and records are not yet complete; amounts payable to employees for vacation pay; and other operating expenses to be accrued, such as expenses incurred during seasonal production shutdowns and accrued interest expenses).
- Other payables represent payables of a non-commercial nature that do not arise from purchases, sales or the provision of merchandise and services.

Payables and accrued expenses are classified as current and non-current in the Statement of Financial Position based on their remaining settlement periods at the end of the accounting period.

17. Payable for dividends and profit distributions

Dividends are recognized as payables when the Group has no discretion to avoid the obligation to pay dividends to shareholders in accordance with securities laws.

18. Deferred revenue

Deferred revenue includes: amounts prepaid by customers for one or more accounting periods for the lease of assets.

Deferred revenue does not include advance payments received from customers for which the Group has not yet delivered products, merchandise or services; nor does it include revenue from asset leasing or services provided over multiple accounting periods for which payment has not yet been received.

TAN CANG OFFSHORE SERVICES JOINT STOCK COMPANY

Address: No. 52-54 Truong Van Bang Road, Binh Trung Ward, Ho Chi Minh City

INTERIM CONSOLIDATED FINANCIAL STATEMENTS

Accounting period from 1 January 2026 to 30 June 2026

Notes to the Interim Consolidated Financial Statements (cont.)

19. Owners' equity

Owners' contribution capital

Owners' contribution capital is recognized at the actual amount of capital contributed by the shareholders.

Other equity

Other sources of capital arise from additional source from financial performance.

20. Profit distribution

Profit after tax is distributed to shareholders after appropriation to funds under the Charter of the Company as well as legal regulations and approved by the General Meeting of Shareholders.

The distribution of profits to the shareholders takes into account non-monetary items included in retained earnings that may affect cash flows and the ability to pay dividends, such as: gains from revaluation of assets invested in other entities, gains from revaluation of monetary items, financial instruments, and other non-monetary items.

21. Recognition of revenue and income

Revenue from sales of merchandise

Revenue from sales of merchandise shall be recognized when the Group satisfies its performance obligation under the contract by transferring control of the merchandise, finished goods to the customer and all of the following conditions are satisfied:

- The Group has transferred substantially all the risks and rewards incidental to ownership of the merchandise and finished goods to the customer;
- The Group retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the merchandise and finished goods sold;
- Revenue can be measured reliably;
- It is probable that the economic benefits associated with the sale transaction will flow to the Group; and
- The costs incurred or to be incurred in respect of the sale transaction can be measured reliably.

Revenue from rendering of services

Revenue from rendering of services shall be recognized when the Group satisfies its performance obligation under the contract and all of the following conditions are satisfied:

- Revenue can be measured reliably. When the contract stipulates that the buyer is entitled to return the services rendered under specific conditions, revenue is recognized only when those specific conditions no longer exist and the buyer is not entitled to return the services rendered;
- It is probable that the economic benefits associated with the rendering of services will flow to the Group;
- The stage of completion of the transaction at the end of reporting period can be measured reliably; and
- The costs incurred for the transaction and the costs to complete the transaction can be measured reliably.

In the case that the services are rendered in several accounting periods, revenue is recognized on the basis of the stage of completion at the end of the accounting period.

Revenue from operating leases

Revenue from operating leases is recognized on a straight-line basis over the lease term. Rentals received in advance for several periods are allocated to revenue in consistence with the lease term.

Revenue from construction contracts

A construction contract is a contract specifically negotiated for the construction of an asset or a combination of assets that are closely interrelated or interdependent in terms of their design, technology and function or their ultimate purpose or use.

TAN CANG OFFSHORE SERVICES JOINT STOCK COMPANY

Address: No. 52-54 Truong Van Bang Road, Binh Trung Ward, Ho Chi Minh City

INTERIM CONSOLIDATED FINANCIAL STATEMENTS

Accounting period from 1 January 2026 to 30 June 2026

Notes to the Interim Consolidated Financial Statements (cont.)

Construction contract revenue comprises the initial amount agreed in the contract and variations arising during contract performance that are mutually agreed by the parties, including changes in the scope of work, additional work requests, incentive payments for early completion, and claims for reimbursement of costs incurred in excess of the contract price, provided that such amounts can be measured reliably and it is probable that they will be approved.

When the outcome of a construction contract can be estimated reliably: revenue and costs relating to the contract are recognized in proportion to the stage of completion, as confirmed by customers and reflected on the invoices issued.

Increases or decreases in the volume of construction work, claims for compensation and other amounts receivable are recognized as revenue only when they have been agreed with the customer.

When the outcome of a construction contract cannot be estimated reliably:

- Revenue is recognized only to the extent of contract costs incurred that are probable of recovery.
- Contract costs are recognized as expenses when they are incurred.

When the projected total contract costs exceed the total contract revenue, the expected loss is recognized immediately as an expense during the period in which it is identified.

The difference between cumulative construction contract revenue recognized and cumulative amounts billed in accordance with the contract's scheduled payment progress is recognized as a receivable or payable relating to the scheduled progress of construction contracts.

Interest income

Interest income is recognized on a time-proportion basis using the effective interest rate for each period.

Dividend income

Dividends and distributed profits are recognized when the Group has the right to receive dividends or profits from its investments. For investments in entities whose securities are registered and centrally deposited with the Vietnam Securities Depository and Clearing Corporation, dividend income is recognized on the record date. For investments in other entities, the recognition date is determined in accordance with the Law on Enterprises and the charter of the investee. Only the portion of dividends or profits attributable to the period after the investment date is recognized as financial income. The portion attributable to the period before the investment date is deducted from the cost of the investment. For stock dividends received, only the additional number of shares is tracked. The value of such shares is neither recognized as financial income nor included in the carrying amount of the investment.

22. Revenue deductions

Revenue deductions comprise trade discounts, sales allowances and sales returns. These items are accounted for separately and offset against revenue from sales of merchandise and rendering of services in determining net revenue for the reporting period.

When products, merchandise and services were sold in prior periods but trade discounts, sales allowances or sales returns arise in a subsequent period, the Group recognizes the resulting reduction in revenue as follows:

- If the revenue deductions arise before the Financial Statements are authorized for issue, they are treated as adjusting events after the reporting date and recognized as a reduction in revenue in the financial statements for the reporting period.
- If the revenue deductions arise after the Financial Statements are authorized for issue, they are recognized as a reduction in revenue during the period in which they arise.

23. Borrowing costs

Borrowing costs include interest expenses and other expenses incurred directly in connection with the borrowings.

Borrowing costs are recognized as expenses when incurred, unless they qualify for capitalization. Borrowing costs directly related to the construction or production of qualifying assets that take a substantial period of time (more than 12 months) to be ready for their intended use or for sale are

TAN CANG OFFSHORE SERVICES JOINT STOCK COMPANY

Address: No. 52-54 Truong Van Bang Road, Binh Trung Ward, Ho Chi Minh City

INTERIM CONSOLIDATED FINANCIAL STATEMENTS

Accounting period from 1 January 2026 to 30 June 2026

Notes to the Interim Consolidated Financial Statements (cont.)

capitalized as part of the asset's cost when the entity is certain to derive future economic benefits from the asset and the borrowing costs can be reliably measured.

The capitalization of borrowing costs begins when all three of the following conditions are met simultaneously:

- Costs related to the construction or production of the asset have been incurred;
- Borrowing costs have been incurred; and
- The activities necessary to prepare the assets for its intended use or sale are in progress.

Capitalization is suspended during periods when the construction or production process is abnormally interrupted. Capitalization ceases when the major activities necessary to prepare the asset for use or sale have been completed.

For borrowings made specifically for the construction or production of a qualifying asset, the amount of borrowing costs eligible for capitalization is the actual borrowing costs incurred, less any investment income earned on the temporary investment of such borrowings.

For general borrowings used for the construction or production of a qualifying asset, the amount of borrowing costs eligible for capitalization is determined by applying a capitalization rate to the weighted average of expenditures incurred on that asset. The capitalization rate is the weighted-average borrowing cost applicable to the outstanding general borrowings during the period, excluding borrowings made specifically for the purpose of obtaining a qualifying asset.

24. Expenses

Expenses are decreases in economic benefits and are recognized when transactions occur or when it is probable that they will arise in the future, regardless of whether payment has been made. Expenses are recognized even when they are not yet due for payment, provided that it is probable that they will be incurred, in order to comply with the principles of prudence and capital maintenance.

When the Group recognizes revenue, it also recognizes the corresponding expenses incurred in generating that revenue. Such expenses include expenses incurred during the period in which the revenue is generated, expenses incurred in prior periods, and accrued expenses attributable to the revenue of that period. When the matching principle conflicts with the principle of prudence, expenses are recognized based on the substance of the transaction and the Vietnamese Accounting Standards to ensure that the transaction is presented faithfully and fairly.

25. Corporate income tax

The Group's corporate income tax accounting policy is applied in accordance with Corporate Income Tax Law No. 67/2025/QH15 dated 14 June 2025, Decree No. 320/2025/ND-CP dated 15 December 2025 issued by the Government, providing detailed guidance on the implementation of certain articles of the Corporate Income Tax Law, relevant guidance issued by the Ministry of Finance, and other applicable laws and regulations.

Corporate income tax includes current corporate income tax and deferred income tax.

Current corporate income tax

Current income tax expense is the amount of corporate income tax payable calculated based on taxable income for the year and the current corporate income tax rate. The difference between taxable income and accounting profit results from adjustments for temporary differences between tax and accounting treatments, non-deductible expenses, non-taxable income, and tax losses carried forward.

Each quarter, the Group determines and records the estimated corporate income tax payable based on its provisional corporate income tax return. At the end of the accounting period, the Group determines the actual corporate income tax payable based on its annual corporate income tax finalization return and adjusts for any differences from the amounts provisionally recorded during the year.

Deferred income tax

Deferred income tax represents corporate income tax payable or recoverable in future periods as a result of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and their respective tax bases.

TAN CANG OFFSHORE SERVICES JOINT STOCK COMPANY

Address: No. 52-54 Truong Van Bang Road, Binh Trung Ward, Ho Chi Minh City

INTERIM CONSOLIDATED FINANCIAL STATEMENTS

Accounting period from 1 January 2026 to 30 June 2026

Notes to the Interim Consolidated Financial Statements (cont.)

Deferred income tax liabilities are recognized for all taxable temporary differences, except those arising from the initial recognition of an asset or a liability in a transaction that, at the time of the transaction, affects neither accounting profit nor taxable income.

Deferred income tax assets are recognized for all deductible temporary differences to the extent that it is probable that sufficient future taxable profits will be available against which such temporary differences can be utilized. Deferred tax assets are also recognized for unused tax losses and unused tax credits to the extent that sufficient future taxable profits will be available against which they can be utilized. Deferred tax assets and deferred tax liabilities arising from transactions recognized directly in equity are not recognized in deferred corporate income tax expense.

The carrying amount of deferred tax assets is reviewed at the end of each accounting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the deferred tax assets to be recovered.

Deferred tax assets and deferred tax liabilities are measured at the tax rates expected to apply in the financial year in which the assets are recovered or the liabilities are settled, based on the tax rates and tax laws enacted at the end of the accounting period.

When preparing the Statements of Financial Position, deferred income tax assets and deferred income tax liabilities shall be offset when:

- The Group has the legal right to offset current income tax assets against current income tax liabilities; and
- The deferred tax assets and deferred tax liabilities relate to corporate income taxes levied by the same taxation authority:
 - For the same taxable entity; or
 - The Group intends to settle current income tax liabilities and current income tax assets on a net basis, or to recover the tax assets and settle the tax liabilities simultaneously, in each future period in which significant amounts of deferred income tax liabilities or deferred income tax assets are settled or recovered.

26. Related parties

Parties are considered to be related when one party has the ability to control or exercise significant influence over the other party in making financial and operating policy decisions. Parties are also considered to be related when they are subject to common control.

The related parties of the Group include:

- Shareholders that are organizations with direct or indirect voting rights that result in significant influence over the Group, including subsidiaries, associates of these shareholders;
- The Group's associates;
- Individuals with direct or indirect voting rights that result in significant influence over the Company, including the members of Board of Directors and their close family members.
- Key management personnel with the authority and responsibility to plan, direct, and control the Company's operations, including the key management personnel, and their close family members;
- Enterprises in which individuals belonging to the above groups directly or indirectly hold a sufficiently large voting interest to exercise significant influence over those enterprises, including enterprises owned by key management personnel or major shareholders of the Company and enterprises that have key management personnel in common with the Company.

Close family members of an individual are those who can influence or be influenced by that individual when transacting with the Group, including their parents, spouse, children, and siblings.

Transactions between related parties are transfers of resources or obligations between such parties, regardless of whether they involve consideration.

Address: No. 52-54 Truong Van Bang Road, Binh Trung Ward, Ho Chi Minh City

INTERIM CONSOLIDATED FINANCIAL STATEMENTS

Accounting period from 1 January 2026 to 30 June 2026

Notes to the Interim Consolidated Financial Statements (cont.)

In considering related party relationships, the substance of the relationship is given greater consideration than its legal form.

27. Segment reporting

A business segment is a distinguishable component of the Company that is engaged in producing or providing an individual product or service, or a group of related products or services, and that is subject to risks and returns that are different from those of other business segments.

A geographical segment is a distinguishable component of the Company that is engaged in producing or providing products or services within a particular economic environment and that is subject to risks and returns that are different from those of business segments operating in other economic environments.

The nature of risks and returns is the primary basis for determining whether the primary segment reporting format is based on business segments or geographical segments. If risks and rates of return are affected mainly by differences in products and services, the primary segment reporting format is based on business segments and the secondary segment reporting format is based on geographical segments. Conversely, if risks and rates of return are affected mainly by differences in geographical areas, the primary segment reporting format is based on geographical segments and the secondary segment reporting format is based on business segments. The Group's organizational and management structure and internal financial reporting system are the principal basis for determining the primary and secondary segment reporting formats.

A segment is required to be reported if the majority of its revenue is derived from sales of merchandise and rendering of services to external customers and it meets at least one of the following thresholds:

- The segment's revenue accounts for 10% or more of the total revenue of all segments; or
- The segment result accounts for 10% or more of the combined results of all profitable segments or the combined losses of all loss-making segments, whichever is greater in absolute amount; or
- The segment's total assets account for 10% or more of the total assets of all segments.

The segment information is prepared and presented in conformity with the accounting policies applied for the preparation and presentation of the Group's Consolidated Financial Statements.

INTERIM CONSOLIDATED FINANCIAL STATEMENTS

Accounting period from 1 January 2026 to 30 June 2026

Notes to the Interim Consolidated Financial Statements (cont.)

These are BCC capital contributions of the subsidiary – Tan Cang Offshore Travel and Flight Services JSC. (“TCOTS”), including:

- (i) The capital contribution under Business Cooperation Contract No. 1801/IDI-KHKD dated 18 January 2016 between TCOTS, Tan Cang Investment and Infrastructure Development JSC. and Tan Cang Song Than ICD JSC. for the purpose of investing in the construction and operation of a warehouse at Tan Cang Song Than ICD. The term of the cooperation is 49 years from the date on which Tan Cang Saigon Corporation hands over the infrastructure. The total investment capital is VND 146,298,243,128, with TCOTS’s proportion of capital contribution being 50%, equivalent to VND 73,149,121,564. The capital contribution is gradually recovered annually through the depreciation of assets arising from BCC. Operating profits are distributed in proportion to the capital contribution. The BCC contract is proceeding normally, with profits distributed annually.
- (ii) The capital contribution under the Investment Cooperation Contract dated 14 November 2025 between TCOTS and Hong Son Company Limited is for the development of the Coral Beach tourist resort in Mui Ne Ward, Binh Thuan Province. The term of the cooperation is 25 years, ending on 31 January 2051. The total projected investment is VND 199 billion, with TCOTS’s proportion of capital contribution being 30%, equivalent to VND 60 billion. Operating profits are distributed in proportion to the proportion of capital contribution. The BCC contract is currently in the investment phase and has not yet commenced production or business operations. At the end of accounting period, the outstanding capital to be contributed by TCOTS is VND 17,386,134,000.

- (i) In 2025, the Company sold Mv. TC Royal to Asia Investment and Asset Management Joint Stock Company (a related party/"Ashico") for a pre-tax price of VND 363,779,200,000. Concurrently, the Company signed an agreement dated 31 March 2025 to lease Mv. Royal back from Ashico. The lease term is 24 months with an option to extend for an additional 12 months (if applicable), effective from the transport date on 31 March 2025.

At the time of the transfer, Mv. TC Royal had a carrying amount of VND 43,016,725,364 and a fair value of VND 149,940,000,000 (determined based on the valuation certificate issued by Hoa Sen Appraisal and Financial Investment JSC. - Southern Branch dated 20 March 2025). The difference between the fair value and the carrying amount of the asset, amounting to VND 106,923,274,636, was recognized as other income (Note VI.7).

The difference between the selling price and the fair value, amounting to VND 213,839,200,000, was recognized as deferred revenue and will be allocated to reduce lease expenses over the 24-month lease term.

- (ii) This represents deferred revenue from the hire of ROV equipment to be allocated over 22 months, amounting to VND 39,333,333,335.

20b. Long-term deferred revenue

All taxes and other obligations to the State Budget are settled in the short-term.

Value added tax ("VAT")

The Group has to pay VAT in accordance with the deduction method. The VAT rates applied are as follows:

- Export goods, international service provision 0%
- Pre-processed or unprocessed agricultural products sold to army units and retail customers 5%
- Other goods and services 8 – 10%

Corporate income tax ("CIT")

In 2014, the Parent Company made an additional investment in the port sector and began generating taxable income. According to the regulations in Article 19 and Article 20, Circular No. 78/2014/TT-BTC dated 18 June 2014, the Company is exempted from CIT for 4 years (from 2014 to 2017) and reduced 50% of tax payable in the next 9 years (from 2018 to 2026) for income generated from this activity. In addition, the income from the port exploitation activity enjoys an incentive tax rate of 10% for 15 years (from 2014 to 2028).

Subsidiaries within the Group have to pay CIT at the rate of 20%.

The CIT liability of the Company is determined based on the prevailing regulations on taxes. However, these regulations may change from time to time and regulations applicable to variety of transactions can be interpreted differently. Therefore, the tax amount presented in the Consolidated Financial Statements could change when being inspected by the Tax Authorities.

Other taxes

The Group declared and paid these taxes in line with the prevailing regulations.

Unallocated liabilities				343,641,787,679
Total liabilities				5,492,201,285,443

3b. Information on geographical segments

The Group's operations are primarily conducted within the territory of Vietnam. Therefore, the Group does not present segment reporting by geographical segment.

4. Comparative figures

As presented in Note III.1, the Group has applied Circular No. 99 from 1 January 2026. Certain comparative figures have been adjusted to comply with the presentation requirements of Circular No. 99 for financial statements. In addition, the Group has restated the balance of dividends payable to non-controlling shareholders. Details of the changes are as follows:

	Code	Pre-adjustment figures	Adjustments	Adjusted figures
Interim Consolidated Statement of Financial Position				
Cash	111	400,188,884,299	(20,344,491,569)	379,844,392,730
Cash equivalents	112	683,452,540,719	(169,437,360,564)	514,015,180,155
Short-term held-to-maturity investments	123	444,835,225,635	5,635,392,456	450,470,618,091
Receivables for short-term loans		242,866,050	(242,866,050)	-
Other short-term receivables	135	362,303,905,952	(10,394,631,191)	351,909,274,761
Other current assets	165	-	191,038,091,509	191,038,091,509
Receivables for long-term loans		9,000,000,000	(9,000,000,000)	-
Other long-term receivables	215	50,700,904,854	(43,058,046,854)	7,642,858,000
Investments in other entities	263	-	44,878,405,411	44,878,405,411
Held-to-maturity investments	265	156,450,000,000	10,925,506,852	167,375,506,852
Payable for dividends and profit distributions	313	-	6,402,240,000	6,402,240,000
Other short-term payables	320	90,880,383,763	1,778,400,000	92,658,783,763
Non-controlling interests ("NCP")	429	582,468,907,243	(8,180,640,000)	574,288,267,243

The main adjustments include:

- Reclassify restricted deposits from "Cash and cash equivalents" to "Other current assets".
- Reclassify accrued interest income on deposits and loans to the same item as the corresponding principal amounts.

TAN CANG OFFSHORE SERVICES JOINT STOCK COMPANY

Address: No. 52-54 Truong Van Bang Road, Binh Trung Ward, Ho Chi Minh City

INTERIM CONSOLIDATED FINANCIAL STATEMENTS

For the accounting period from 1 January 2026 to 30 June 2026

Notes to the Interim Consolidated Financial Statements (cont.)

- Restating loans by their respective maturities to "Short-term held-to-maturity investments".
- Restating the BCC without joint control to "Investments in other entities".
- Restating dividends payable to non-controlling shareholders in the subsidiary from the line item "Non-controlling interests ("NCI")" to corresponding line items.

5. Significant accounting estimates and assumptions

In preparing the Interim Consolidated Financial statements, the Board of Management has made assumptions and estimates that affect the figures for assets, liabilities, revenue and expenses. Actual results may differ from these estimates. The Board of Management assesses and updates these key assumptions and estimates regularly, based on historical experience and other relevant factors.

The preparation of the Interim Consolidated Financial Statements in compliance with Vietnamese Accounting Standards, the Vietnamese Enterprise Accounting System and relevant statutory requirements applicable to the preparation and presentation of Interim Consolidated Financial Statements requires the Board of Management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent liabilities and contingent assets at the end of the accounting period, as well as the reported amounts of revenue and expenses during the period. Actual results may differ from these estimates and assumptions.

The estimates and assumptions that have a material impact on the Interim Financial Statements include:

- Allowance for doubtful debts (Note IV.5);
- Useful lives of tangible and intangible fixed assets (Notes IV.8, 9 and Notes V.10, 12).

The above estimates and assumptions are made by the Board of Management based on the best information and experience currently available and are reviewed and reassessed at each reporting date. At the end of the accounting period, based on its assessment of the uncertainties associated with these estimates and assumptions, the Board of Management has determined that there are no material matters requiring additional disclosure regarding the potential effects, the likelihood of different outcomes, or the measures expected to be taken in the subsequent accounting period.

There have been no material changes in the bases and methods used in determining accounting estimates compared with those applied in the preparation of the most recent annual Consolidated Financial Statements or the Interim Consolidated Financial Statements for the corresponding period of the previous year.

6. Subsequent events

Apart from the events described in Note V.25, from the end of the accounting period to the date of approval on the Financial Statements, there have been no material events arising, which need to make adjustments on the figures or to be disclosed in the Interim Consolidated Financial Statements.

Approved on 28 August 2026
